

WHARTON LEADERSHIP VENTURES 2018 – 2019

WHAT ARE VENTURES?

Leadership Ventures are experiences that facilitate self-discovery, leadership, and character development. Participants are able to step out of their comfort zone, exceed personal limitations, and experience leadership firsthand. There are two types of Leadership Ventures:

- **Intensives:** consolidated and immersive group based experiences ranging from 1-3 days.
- **Expeditions:** span the globe & range from 6–14 day overnight trips and tend to be high in physical intensity.

By deliberately creating environments in which learning is centered on direct action and experience, Leadership Ventures provide an important supplement to traditional classroom education. Leadership Ventures provide a foundation for individual, small group, and community-level learning by structuring periods of personal reflection and guided discussion around specific activities.
